

EXHIBIT IV

FIXED ASSET INVENTORY SIXTY-DAY FOLLOW-UP LETTER

TO: David E. Sundstrom, Auditor-Controller

ATTENTION: General Ledger Unit

SUBJECT: Fixed Asset Inventory Follow-up;
Inventory as of June 30, 1999

When we completed the physical inventory of fixed assets as required by the Codified Ordinances of the County of Orange, we reported that the location of certain items could not be determined.

Sixty days have elapsed since the inventory was taken. A listing of items found and items which are still missing is attached.

We have checked and rechecked all physical locations of our office several times with no success in locating those items still missing. We have been unable to determine who was using the items at the time they became missing. The items were first noted missing when the fixed inventory was taken on June 30, 1999. Possible explanations for the losses are noted on the attached listing.

We ask that the Auditor-Controller advise the Board of Supervisors and request authorization to delete these fixed assets from our inventory and relieve the department /agency head for accountability for these items.

Department/Agency Head

EXHIBIT IV PART 2
